- Dr. Heny Hendrayani, MSi. (Academic Staff)

Purpose

- To explore possible collaborations between the two institutions.

Workshops and short courses

October 2019

Higher Degree Research Program Workshop

- This workshop was designed for ten academic staff from the Indonesian University of Education (Universitas Pendidikan Indonesia /UPI) to provide them with insights into the planning, development, and evaluation of research and communication skill programs for higher degree research students at the University of Adelaide

November 2019

Item Analysis Workshop

- A workshop for a delegation of 10 staff from the Sri Lankan Examinations Department on the assessment and measurement of student achievement and item test analysis was delivered on Tuesday 5th November by Darmawan and Nina.

November 2019

An Introduction to Education short course

- This program was designed to support the University of Mulawarman students in improving their research

knowledge and skills. This program was a non-award program. Upon completion of the program, a Certificate of Attendance/Completion was awarded. Ten students attended this short course program, which was initially planned to be delivered in November 2019, but was postponed until March 2020.

Split-site program Master of Education

A split site program was established between the Master of Education programs at the University of Adelaide and the University of Mulawarman (UNMUL).

The University of Adelaide gives credit towards its Master of Education to students who have completed certain courses of UNMUL's Master of Education. UNMUL students who complete both programs are eligible to receive both Masters degrees.

This dual degree program is funded by both the East Kalimantan provincial government through UNMUL for the one year of studies in Indonesia and the Australian Government through the Australia Awards Split Site scholarship program for the one year of study in Australia.

Nine students have commenced in UNMUL in September 2019 under this agreement. They expect to complete their studies at UNMUL in June 2020 and will transfer to Adelaide in January 2021 after 6-months of pre-departure training in Indonesia.

New Colombo Plan (NCP) (2019, \$247,500 over a 3-year period)

The project is an initiative to increase pre-service teachers' knowledge of Indonesia and specifically the host location, Bandung. The project seeks to place the University of Adelaide pre-service teachers into five schools associated with the Indonesia University of Education (UPI).

The pre-service teachers will engage in a four week mobility experience created in conjunction with the UPI and the host schools.
